Formal Recognition

Type of Recognition: Municipal Heritage Property

Date of Recognition: October 24, 2006

Statement of Significance

Given the significance of the building to the history of the community as a bank and a law office, its architectural significance to the downtown street-scape as the community's only purpose built bank structure dating from its development and settlement period, and given the remarkably intact nature of the building's contents; the Mayor and Council of the Town of Maple Creek formally designated 114 Jasper Street as a Municipal Heritage Property in the fall of 2006.
